

*“The #Live4Love Initiative”* is a social contract reestablishing a relationship of pure value between a community and its members. Honoring the terms and conditions of this contract must be a mutual agreement among this collective group of people. The immeasurable amounts of kindness, grace, and mercy are what influence the measurable amounts of crime, indecency, and injustice. The people will not thrive without their community; and the community will not survive without its people. It is both that are the heartbeat of one another. This contract is not laughable, non-negotiable, and cannot be mocked at the expense of the community and/or its members. Creating a loving coexisting environment must be an unmovable priority in order for justice to be properly served. The terms and conditions of this initiative are outlined by the following:
